

Learning Values	Teamwork 	Reflection 	Questioning 	Independence 	Creativity 
Slogan	The Power of a TEAM	What matters most is how you see yourself.	Ask the questions... Challenge the answers!	I can do it...	Know no limits
Statement	At St James we believe teamwork involves working together towards a common goal through clear communication, respect and supporting one another and ensuring each and every member of the team makes a valuable contribution to achieve a successful outcome.	At St James we use our thinking skills to take time to reflect on our past and present experiences to develop and improve our learning and behaviours. We plan using our next steps to ensure we always achieve our very best in our learning. Reflection is the way forward!	Questioning is the ability to seek out and explore further possibilities than those that have been presented to you. Questioning children at St James have: Self-esteem/confidence, -enquiry skills, pertinent questions, deeper understanding, engagement, adaptability. Questioners are unafraid to explore, redefine, experiment, discuss, reject and accept ideas	At St James the children will make decisions about their learning and are all happy and confident to have a go. This will develop the children's confidence, allow them to source their own resources, mature socially, be responsible for their own belongings and make decisions.	Creativity is seeing the world in new ways, exploring possibilities, making connections and finding solutions. Let your imagination run free. Creativity has no boundaries therefore it is not restricted to age related expectations. At St James it is encouraged at every opportunity throughout the school.
Reception	Can I share with others? Can I be kind to everyone? Can I be a good listener?	Can I talk about my work? Can I say what is good about my/someone else's work? Can I say how I am feeling?	Do I understand what makes a question? Can I ask questions? Can I answer questions clearly?	Can I dress and toilet myself? Can I organise and look after my belongings? Can I put my equipment away?	Creativity is not limited by age: 1. Creating and exploring ideas 2. Thinking outside the box and seeing the world in new ways 3. Problem solving and finding new ways to do things. 4. Responding to stimuli in innovative ways and making original connections. 5. Creating and improvising. - Imaginative play – role play/construction - Drama – hot seating, debate - Dance - Improvisation - Art - Music - Creative Writing - Worship - Problem Solving - Computing - PE - Science - History - Story telling - Mind Maps - DT
Key Stage 1	Can I recognise the different roles in a team? Can I respect the views of others? Can I take 'turns'?	Can I talk about what is good about my learning and why? Can I think of a next step to improve my work? Can I give feedback to my class about our learning?	Can I ask questions to increase my understanding? Can I understand open and closed questions? Can I ask questions that help me find out more?	Can I come into school and be ready to learn? Can I follow class routines? Can I work on my own with my own ideas?	
Year 3 & 4	Can I take responsibility for my role in a team? Can I understand my strengths? Can I make a valuable contribution to a team?	Can I respond to my feedback and use this in my future learning? Can I recognise that not all feedback will be positive but will be helpful to my learning? Can I give feedback in a constructive way?	Can I answer questions even when I'm not sure of the answer? Do I have the confidence to have a go? Can I ask relevant questions? Can I see evidence to back up my answers?	Can I find information myself? Can I make my own decisions? Can I complete and hand in my homework on time?	
Year 5 & 6	Can I use my strengths to my team's advantage? Can I be accountable for my actions? Can I support and motivate myself and others?	Can I respond to constructive feedback in a positive way? Can I identify my targets to edit and improve my work? Can I give feedback in a constructive way and give examples how?	Can I ask questions that may not have an answer? Can I think of a question that would change the world/my answer/ my mind? Can I ask challenging questions?	Can I take responsibility for my actions? Can I be responsible for my own homework? Can I show progression in my learning on my own?
