

In Geography, we are comparing hot and cold countries and learning how climate varies around the world and how it affects lifestyle (housing, clothing etc). Children will also be using a map to label countries and capital cities in the U.K.

In D.T we will be designing and making simple climate appropriate shelters.

In English, we will be orally retelling stories using actions to support story writing. We will also be producing non-fiction fact files about Lapland. Daily phonics will continue.

In outdoor games we will be exploring how to run at different speeds and complete circuits using a variety of equipment. In P.E we will be learning different dance skills.

In ICT we will be learning about different digital resources around us.

In Maths, alongside number work, we will be focusing on recognising and naming 2D and 3D shapes and revisiting time. Focus on the days of the week, months of year, the 4 seasons and o'clock and half past the hour.

In RE we are learning about showing respect and kindness to others and looking at examples Jesus gave us.

Our project is...

All Change

If you are an expert in any of these areas, please let us know so you can come into class and share your knowledge with the children.

Thank you for your support,
Miss Bowen, Mrs Jacobs and Mrs Allery
