

In **Science**, we will be observing changes across the seasons. We will also be looking at different types of trees and leaves, including deciduous and evergreen trees.

We will be continuing with our '**Difference**' programme focusing on themes of hope, peace, forgiveness and belonging.

In **RE** we will be looking at why Christmas is important to Christians.

In **English**, we will continue to focus on sentence construction and the use of 'woodland' themed stories to help us sequence events in a story. We will also be learning how to write a recount of our trip to King's Park.

In **Art**, we will be exploring charcoal line drawings with our key Artist being, Jane Hissey.

A Walk in the Park Curriculum Overview

In **Maths**, we will be learning about addition and subtraction.

In **Computing**, we will be learning to use pictograms to represent data.

In **Geography**, we will be looking at our local area, studying different types of maps, the features of a map and the weather patterns across the seasons.

PE continues to be on a Wednesday. There will be fitness and invasion games inside and outside.

Thank you for your continued support.
Mrs Allery, Mrs Stoodley and Mrs Samtani
